

Learning with Linguascope - www.linguascope.com

As part of our MFL provision at Sarisbury, our school subscribes to a fabulous online language website www.linguascope.com. It covers most of the areas that we teach in school, and many more. If your child is especially keen, they can also dip in and out of German, Italian, Russian, Maori, Arabic, Chinese and Welsh! The site is organised into three levels and includes a bonus section, too:

- Elementary – covers basic introduction of key vocabulary – there are fewer games in this section.
- **Beginner – introduces includes basic vocabulary and offers a wide range of games to practise fluency, recall and reinforce correct pronunciation. This section is the one most children enjoy the most and is at the best level for their learning at KS2!**
- Intermediate – this will be quite a challenge for the levels the children are working at now, but some children will enjoy watching the ‘Scénette de présentation’ / ‘Dialogo de introducción’ and working methodically through the activities that follow.
- Fantastic football – includes football themed games based on names of countries around the world.

Throughout the year, we also offer a fun **lunchtime language club**– encourage your child to keep an ear out for when their year group is invited to take part!
