

Working and learning together for success

PE Development at Sarisbury Junior School **2017 - 2018 Report**

The notable level of success in PE and the impact of the government sports funding over the past few years is acknowledged through the awards of the 'Gold level Sainsbury's School Games Kitemark' and the 'AfPE Quality Mark' (with distinction). Both accreditations have been awarded at the highest level with SJS being one of only a handful of schools in the region to have achieved this status and also one of the only schools in Fareham eligible to move towards the platinum award in the near future.

Continuing with our strong provision and commitment to PE, sport at Sarisbury is an area which will again benefit from a significant amount of investment in the coming year. This will be seen as both financial investment and the continued commitment of time given to sport and PE by teaching staff across the school. This results in a varied, high quality curriculum giving children the chance to experience a range of sports and skills leading them to a lifelong involvement in physical exercise, team and individual pursuits. As a result, 96% of children have been assessed to be at Age Related Expectation (ARE) or beyond in PE with Headteacher and SLT moderation and observations confirming these assessments.

The delivery of high quality PE is complimented by the extensive grounds at SJS. The playground comprises of a multi-use sports court and our large school field has space for two 7-a-side football pitches in the winter months and, in the summer months, space for three rounders pitches and an athletics track. The level of physical activity during play and lunchtimes is also encouraged due to our high quality adventure playground and the availability of other sporting equipment.

The majority of teachers have now benefitted from the support of the specialist PE teacher and coach (in conjunction with our school partnership agreement) with both the planning and the delivery of lessons. This will continue throughout the following year with specific support for teachers who identify particular CPD needs through competence audits (and observations). We also endeavour to provide further monitoring of PE by the Headteacher and Senior Leadership Team. This will involve monitoring the delivery of a variety of sports with a focus on providing for and challenging more able and gifted and talented children across the school.

The context of sport at Sarisbury Junior School is used across the curriculum in everything we do. The skills and positive values of the Olympics underpin and are fully integrated into the school ethos and indeed drive our behaviour management; children are organised into Olympic colour teams, for which they earn points towards a half-termly reward for the winning team.

Our extra-curricular provision is outstanding; all pupils are able to access a broad offer of sports activities after school in clubs run almost exclusively by school staff. They are given opportunity to experience well-known sports as well as those which they may never have previously experienced whilst also developing a community among the members of the school.

Our success in inter- and intra-schools competitions has been good for a number of years and pupils sporting achievements, both inside and outside of school, are regularly shared and celebrated during assemblies as well as a Sports Awards event at the end of each academic year.

Our use and impact of the PE and Sport Grant (2017/2018)

- For the 2017-2018 academic year, we were allocated approximately £19,000.
- Based on the 2017-2018 year of investment we felt that our money would be best spent by buying in at the 2nd level of the partnership for approximately £4,500 giving us half a day of teacher support with the option of further coaching for the after school clubs. The support was spread across each year group during the year with a focus on gymnastics as this was the area of development identified in the AfPE process.
- Change 4 life clubs ran throughout the year with the CM sports coach ensuring that disadvantaged pupils could be targeted and offered spaces in a club which they may otherwise choose not to attend.
- The purchase of ipads for assessment of PE has ensured that there is evidence of a range of PE activities with teachers being able to assess after the action has taken place ensuring both quality of teaching within the lesson but also rigour of assessment and the opportunity for moderation as the evidence can be viewed again and again.
- The level of involvement in the local school games events has meant that lots of children have had opportunity to participate in events that otherwise they would not have the opportunity to do so.

other areas in which the money was spent:

- to release the current PE leader to further support other year groups in planning, implementation and assessment of the PE curriculum in each year group.
- to fund the attendance of events (minibus hire, supply cover) and further coaching opportunities where appropriate for the squads from which a final team may be chosen.
- to continue to engage pupils who are otherwise disengaged with physical activity, such as through the change 4 life model.
- to fund the ongoing replacement and upgrading of PE resources throughout the school.
- to further our pursuit of the gold level standard for school games mark and AfPE Quality Mark which have maintained at the highest level.
- To ensure all year 3 children are scooter trained for active journeys to school – the impact of which is that we are now the regional school of the year for our modeshift stars travel awards. Furthermore, we are in the running for being national school of the year.

Overall Objective:

To continue to ensure all staff are equally confident and competent to deliver consistently high-quality PE across the school whilst offering a wide range of opportunities.

IPADS x 12	£3130.00
To use during PE lessons for recording evidence and storing data	
Minibus Hire	£1400.00
Taking children to various sports events and activities	
MIDAS Training	£250.00
Additional driver in school that can drive the minibus as previously only had one (ASt)	
HENRY CORT 1 PM session per week x 40	£4600.00
Improve teaching standards within PE	
CM Sports After School Club	£2560.00
After school multisports offered to targeted children	
Rob Norris	£700.00
Specialist tennis coaching for Year 5	
Scooter Training	£450.00
Scoot-ability for Year 3 children	
Supply Teaching	£3362.00
To cover staff attendance at events and to attend training. Also to cover leadership and planning time. £168.10 per day supply rate.	
Football Posts	£250.00
To improve the facilities for both the girls and boys football teams as well as for lunchtime games	
Netball Posts and installation	£700.00
Permanent netball posts now in place on the school playground.	
Basketballs	£75.00
Replacement basketball resources for curriculum PE	
Football Kit x 3	£700.00
Full replacement football kit for 3 teams	
Cross Country Kit	£800.00
60 new cross country running bibs	

Total Spend : £18.977

Impact to date:

With the use of the government PE funding for schools over the past few years, PE specialists have worked alongside teachers at SJS to mentor and further improve the delivery of PE across the school.

As recorded by the Head Teacher during observations and learning walks, *"The CPD programme ... has resulted in the upskilling and increased confidence of the teachers involved."* Furthermore, teacher surveys confirm that their confidence and competence in teaching PE has improved significantly following the CPD programme. This competence is clearly evidenced as all teaching of PE, observed by the Head Teacher, has been judged as good or outstanding. As a result 96% of children have been assessed to be at Age Related Expectation (or beyond) in PE.

In addition, children of all ages and abilities, including SEND and pupil premium children acquire new subject knowledge and skills and are given further opportunity to develop this above and beyond curriculum PE sessions. For example, through the Fareham school partnership, children of all abilities and ages take part in inter school sporting festivals and competitions. The SJS club list details the children who have taken part in the wider school activities, highlighting SEND and pupil premium children. Therefore, at SJS we closely monitor the opportunities provided to all children resulting in an inclusive PE and competition ethos.

An example of some of the school's competition achievements are as follows:

- The upper school football team has won 4 out of the last 7 league titles in Fareham & Gosport.
- The Upper School Girls' Football Team were winners in the 2017 inter schools tournament.
- The Lower School Girls' Football Team achieved the same success.
- The SJS netball team won the league in 2017 progressing through to the Hampshire Games tournament

How do we intend to use our allocation in 2018-2019?

- For the 2018-2019 academic year, we have been allocated a total of approximately £19,000.
- As with last year, we have again bought in at the 2nd level of the partnership for approximately £5,000 giving us half a day of teacher support from a PE specialist. We have opted out of coaching provided by the partnership as we have now appointed CM sports (highly skilled coaches) to work specifically running coaching sessions for disadvantaged children and engage pupils who are otherwise disengaged with physical activity. This will account for approximately £3000. Additional coaching has been bought in for the summer term at a cost of £1000 to provide tennis skills for pupils across the school.
- The half day teacher support will continue throughout the year with specific support for teachers who identify particular CPD needs through competence audits (and identified through the monitoring cycles) with a focus on providing for and challenging more able and gifted and talented children across the school.
- The PE leader will be released to ensure the continuity of quality leadership as this role will change hands from January 2019.
- The costs for taking children to events provided by the SGO will require both cover for teachers and transport to be used totalling approximately £4,000

The remaining £6,000 will be spent:

- to release the current PE leader to further support other year groups in planning, implementation and assessment of the PE curriculum in each year group (£900)
- to fund the ongoing replacement and upgrading of PE resources throughout the school.
- to further sustain the gold level standard for school games mark.
- to implement the sustainable introduction of daily physical activity such as the golden mile or other such initiatives which may require improvements to the physical environment such as a track around the edge of the field to ensure all-weather participation.

We believe that all of the above measures will ensure that children at Sarisbury Junior School will receive an outstanding deal in terms of the PE provision offered.
