

**Learning with Linguascope - [www.linguascope.com](http://www.linguascope.com)**

Have fun learning a new language, playing games or preparing for your holiday abroad by encouraging the your child to spend some time on our fabulous online language website [www.linguascope.com](http://www.linguascope.com) It covers most of the areas that we teach in school, and many, many more. In addition, if your child is especially keen, they can also dip in and out of German, Italian, Russian, Maori, Arabic, Chinese and Welsh! The site is organised into three levels and includes a bonus section, too:

- Elementary – covers basic introduction of key vocabulary – there are fewer games in this section.
- **Beginner – introduces includes basic vocabulary and offers a wide range of games to practise fluency, recall and reinforce correct pronunciation. This section is the one most children enjoy the most and is at the best level for their learning at KS2!**
- Intermediate – this will be quite a challenge for the levels the children are working at now, but some children will enjoy watching the ‘Scénette de présentation’ / ‘Dialogo de introducción’ and working methodically through the activities that follow.
- Fantastic football – this section includes football themed games based on names of countries around the world.
